## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 18 April 2002.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

- 6) ☐ Other: \_\_\_\_\_.

### **DETAILED ACTION**

Receipt of election to restriction requirement filed 4-18-02, information disclosure statements filed 3-5-01, and 4-27-01 is acknowledged.

#### ***Election/Restrictions***

1. Applicant's election of Group I in Paper No. 7 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 16 and 18-27 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 7.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-15 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. The instant claims recite droplets, however a powder composition is claimed. However, the term "droplets" refer to liquids. It appears the term "particles" is more appropriate.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Leuenberger (EP 0 565 989; hereafter '989) –US 5,668,183 is relied upon as a translation of '989.

'989 discloses gelatin or gum arabic powder compositions for vitamins where the powder composition has a particle size within the instant range. '989 also discloses the instant vitamins and ranges/amounts of ingredients.

***Claim Rejections - 35 USC § 103***

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

10. Claims 1-15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leuenberger (EP 0 565 989; hereafter '989) –US 5,668,183 is relied upon as a translation of '989.

'989 teaches gelatin or gum arabic powder compositions for vitamins where the powder composition has a particle size within the instant range. '989 also discloses the instant vitamins and ranges/amounts of ingredients. '989 does not teach the moisture content of the powder, however it would have been obvious to one skilled in the art at the time of the invention to achieve the instant moisture content based upon the motivation of insuring dryness and good flowability.

11. Claim 17 is rejected under 35 U.S.C. 103(a) as being unpatentable over Leuenberger (EP 0 565 989; hereafter '989) –US 5,668,183 is relied upon as a translation of '989- in view of Finnan et al (4,830,859; hereafter '859).

'989 is relied upon for all that it teaches as stated previously. '989 does not teach incorporating the powder into tablets.

'859 teaches formation of vitamin powder into tablets.

Accordingly, it would have been obvious to one skilled in the art at the time of the invention to form the powder of '989 into tablets with the motivation of providing a convenient dosage form for administration of the vitamin.

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Todd D Ware whose telephone number is (703) 305-1700. The examiner can normally be reached on M-F, 8:00 AM - 4:30 PM.
